Incorporation at Last

Notice has been received that on July 6 the proclamation was ordered to be issued proclaiming that on and after the 6th of July, 1911, the village of Strathmore be elected into a town municipality and consist of the following lands:— all of Sec. 14, E. ½ Sec 15, N. E. ¼ Sec. 10, N. W. ¼ Sec. 11, that portion of the N. E. ¼ of Sec. 11 lying to the west of the C. P. R. right-of-way, and the W. ½ of the S. W. ¼ of Section 13

Upon recomendations Mr. Eugene V. Sly was named returning officer.

The proclamation will be issued in this week's issue of the Gazette. Notices will then be issued calling for nominations for Mayor and six Councillors, and one week later an election will be held.

The municipal act provides that in towns incorporated after July 1st officers shall hold office for balance of the current year and the year next succeeding. The Mayor and Council of Strathmore will therefore hold office for a year and a half.

More News About The Sugar Beet Factory

According to a report in Thursday's issue of the Calgary Daily News the Sugar Factory is to be located at Strathmore after all.

A meeting of the promoters was held at Calgary on Wednesday when officers were elected and plans made for the starting of the factory. The company has been capitalized at $1,500,000, about $1,000,000 of which will be used for buildings, machinery, etc.

The farmers of the district have subscribed about 4,000 acres of sugar beets annually and are very enthusiastic over the project.

With such men as J. S. Dennis, of the C. P. R. C., as president, L. P. Stony, of the Alberta Pacific Grain Company, as vice president, and J. M. Davidson, of the Crown Lumber Company, as sec-treasurer, and such a bunch of progressive farmers as Strathmore district contains the success of the project is assured.

Court of Revision

On Monday at the Firehall the Strathmore School Trustees, sitting as a Court of Revision had before them for consideration seven cases of appeal. Four of these were allowed, but the other three the court could not see their way to reduce.

Evangelistic Meetings

Evangelistic meetings have been held during the past week in a tent at the corner of Railway Ave. and 4th St. by Messrs. H. G. Oliver and J. Zogg.

The meetings have been fairly well attended and been appreciated by many.

The meetings will be continued next week, week nights 8 p.m. Sunday 7.30, but there will be no meeting to-night (Saturday). These meetings are undenominational and you are cordially invited to attend.

The guests at The Maple Leaf Hotel this week include: W. E. Hymas and wife of Nebraska, Henry Shirk, Marshall, Mo., J. Sage, Calgary, Miss Murl Speers, Keoma, R. I. Wilson, Bassano, and C. E. Mattock, Ten.; F. W. Crandall, E. S. Dorylty and B. S. Smith, of the C. P. L. C., Calgary, were also guests there this week.

RIDING THE BUZZARD.

The Ricebird Uses His Bulky Enemy as an Aeroplane.

People generally associate size and brute strength with victory, especially among the lower animals. Many times, however, this is far from being the case, especially in the bird kingdom. Among the rice flats of the Carolinas there abound at some seasons of the year tiny ricebirds, birds so small that it takes two dozen for a good meal, though bones and all are eaten.

The great buzzard is found circling over the flats at all seasons. He dreads the time for the ricebird to come, for he is then nearly pestered to death. It is a common sight to see one of these little birds fly up to a buzzard and, after dodging this way and that round the awkward bulk, finally alight well forward between the buzzard's wings on the back. Here the tiny passenger grabs a few feathers in his beak and holds on for grim life. After enjoying a ride for as long as he desires the little fellow hops off and is gone before Mr. Buzzard is well aware of it.

The peculiar part of the whole thing is that apparently the only purpose the ricebird has in getting on the back of the buzzard is to take a free ride. It puzzles every one who chances to see the little drama to find any other reason, yet the fact remains that it is a frequent occurrence, and the little birds seem to enjoy it immensely.—New York Tribune.

INDIAN DEATH CUSTOMS.

Graves of the Hopi and the Hogans of the Navajos.

The Hopi Indian believes that the souls of all deceased adults go to the Grand canyon. When a man dies a grave is dug. The nearest relative of the deceased carries the body to the grave, places it in a sitting posture facing the Grand canyon, erects a long pole between the legs, locks the dead man's fingers around it and fills the grave. To the top of the pole, protruding above the ground, he ties one end of a string and holds the other end in the direction of the Grand canyon. At the end of four days it is believed the soul leaves the body, climbs the pole and with the string to guide it goes to its eternal home in the canyon.

The Navajos, on the contrary, are very superstitious about handling dead bodies. They believe that the evil spirit that kills the person hovers around the body, as they call their lodge, awaiting other victims, and a hogan in which a death occurs is never occupied again. Navajo hogans are always built with the entrance facing the east. When a death occurs in one of them an opening is invariably made in the north side. Therefore when one sees a hogan with the north side knocked out he may be certain some one has died in it.—Dillon Wallace in Outing.

Antiquity of the Dog.

It is impossible to say when dogs were first domesticated, but some of the earliest traces are found on Egyptian monuments, with figures of dogs, somewhat of the greyhound type, which date back to at least 3500 B. C. Even in those remote days the dog was highly esteemed. Coming down a little later, we read that Ulysses 2,000 years ago was recognized by his dog Argus after his swineherd had failed to do so.

Plutarch speaks of Alcibades, who cut off the tail of his dog, and Myron, the sculptor, immortalized the animal by chiseling his image in marble. The Romans valued their dogs and kept them from the chase and also as pets. Alexander the Great owned a veteran fit to tackle a lion.

A Fabulous Goose.

Geese will live to a great age, and some few years ago I came across a very venerable goose (male or female I could now say) in Westmoreland in unexpected circumstances. I was walking from Milnthorpe to Arnside and at Carnsdale found an acquaintance sitting on a seashore bench feeding a pet goose with biscuits steeped in ale. He told me that this goose had been in his family for over forty years and was partial to beer, stout and even gin.

Rev. James Hall, M. A., told of a goose in Stirlingshire, Scotland, that had been killed by accident after living at the same place for "above eighty years."—London Field.

Skating on a Tennis Court.

When one is building a tennis court provision may easily be made for a rink by excavating from six inches to one foot deeper than the surrounding ground and making this depressed area as much greater than his court as his purse or surroundings will permit. Twenty-five feet in the clear outside the lines of the court will give an area of over 11,000 square feet—an ample space for a number of people to occupy without crowding. The court may be flooded by means of a hose attached to the house faucet, first saturating the ground and then when it has frozen flooding the court.—Suburban Life.

Deafness of Blue Eyed White Cats.

All white cats are not deaf, but most blue eyed white cats are. It has never been discovered why the blue eyed cats should have the tendency to deafness, but it is a fact, while there has never been a case known of a yellow eyed or green eyed white cat being deaf unless by accident.—St. Nicholas.

RIVERSIDE LUMBER CO.

LIMITED

W. S. GLADWIN, LOCAL MANAGER

Nightingale Notes

Mr E Hunter representing The Western School Supply Co. was in town this week.

Hayden & Skene have commenced work on the C. P. R. houses on the new ready made farms that have been locat d in this district.

The first load of freight over the C. P. R. from Irricana to Standard came through on Monday this week. They dropped off nine cars of lumber here to be used for building the C. P. R. houses.

W. E. Brown and family, Judge Lambert and family were in town on Sunday of this week.

On Monday evening of this week the school committee of the Nightingale District held a meeting at Mr Carelton's residence and it was decided to start building a school as soon as arrangements could be made. The plans are to have the building ready for occupancy this fall.

Mrs Fay Warren Bailey of St. Louis, Mo. is spending the summer with her parents Mr and Mrs H. L. Fitts.

Luxuriant Crop of Wild Clover

When Professor Elliott of the C. P. R. Demonstration Farm at Strathmore, was in Calgary the other day, he found growing wild in the Bow flats, just outside the city, the most luxuriant crop of clover ever noted in Alberta. An armful of the huge stalks was taken to the irrigation offices, and each stalk measured four feet six inches in height.

Except for the abnormally developed stalks, the clover is very much like cultivated white clover, bearing pinkish-white blossoms. The sample was tied into a sheaf and placed on exhibition in the Publicity Department yesterday. Professor Elliott pronounced the growth as phenomenal.

Reports of a similar nature are being received daily from the cultivated areas in the Calgary district, and the drenching, dispriting rains of which city folks have been complaining dismally have put the farmers into smiling, good humor everywhere.

Strathmore Park

Mr. F. T. McElhoes received a personal letter from Mr. C. W. Peterson, Superintendent of the C. P. R. Irrigation Department, urging the necessity for something to be done immediately with regards to the proposed park on the C.P.R. right-of-way here.

Last spring Mr. Peterson met a number of Strathmore's prominent citizens and undertook on behalf of the Company to pay any accounts that might be incurred for breaking, etc., until such time as a by-law could be submitted to the people and passed, on the understanding that the citizens would guaranteed that such would be done.

The citizens were very enthusiastic over the proposition and left the matter of proceeding with the work and expenditure of money in the hands of Mr. Skene, President of the Board of Trade.

In seems a pity that such a lot of valuable time is being wasted in not getting on with the work for, if anything is to be done this year it is high time to be getting after it.

How about that TWO PIECE SUIT

BETTER CLOTHES?

It is a primal, basic fact in all construction work---a finished product can be no better than its raw materials. This is equally true, whether you build railroads or clothes.

20th Century Brand bench-tailored clothes are better because they have a better beginning, and they continue to grow better through every process of making down to the last stitch in the buttonholes. 20th Century Brand fabrics are better because they comprise the first selection of the finest goods made---the choice of the looms of the world.

Obituary

We regret to announce this week the death of Mrs C. F. Costello, on Saturday last, at Calgary, after an illness lasting two weeks.

Mrs Costello was tak n to Calgary last week suffering from pleuro pneumonia and was operated on on Friday.

Mrs Costello was the wife of J. J. Costello, farmer, of the Serviceberry District and came here in 1909 from South Dakota.

The body arrived from Calgary on Monday and was met by the relatives and friends and conveyed to the Methodist Church, where the funeral service was conducted by the Rev. Matthews, and interred in Strathmore Cemetary.

Numerous friends showed their sympathy to the relatives by sending flowers which were in great profusion. Mr C. W. Chase was in charge of the funeral arrangements.

Mrs Costello, who was born in Arlington, Mich., was 34 years of age and leaves besides her husband, three children, father and mother and one brother and numerous friends to mourn her loss.

Miss Bernice W. Ruppe, the vocalist of Pentleton Oregon, has announced her intention of spending the winter in Strathmore. While here she will have a class in singing.

Baseball

STRATHMORE 16, BROOKS 0.

A very poor game was handed out to the baseball fans on Monday evening when Brooks came to Strathmore. The Brooks team did not have their regular batteries which accounted for their not being able to put up a better fight. Only five innings were played owing to darkness.

Scere by innings:

Brooks	000 00— 0
Strathmore	305 8"—16

Strathmore line-up — Bride, p, Anderson, c, Evans, 1b, Landnell, 2b, Bouten 3b, Singleton, ss, Henry, rf, Knight, lf, Barker, cf. Brooks batteries, Montgomery and Ingman.

STRATHMORE 7, BROOKS 5

A very much better game was played on Thursday at Brooks, but owing to the Strathmore team being late only six innings were played. As will be seen by the score Strathmore had the first part of the game to themselves but as soon as darkness came on Brooks picked up a bit, which put the idea into their heads that given time they could lick Strathmore. There is some talk of an exhibition match taking place between Brooks and Strathmore at Gleichen in the near future, the winners to take 60 per cent and the loosers 40 per cent of the gate money, with a side bet of $100.

Strathmore line-up was the same as on Monday except that Redford played 2b.

Score by innings:

Strathmore	304 000—7
Brooks	000 104—5

Teams up-to-date:—

	Won	Lost	Pc.
Gleichen	7	2	777
Strathmore	8	3	727
Brooks	4	6	400

If the sugar factory is located in Strathmore we may as well hand over the car shops to Nightingale.

J. P. Nash, hayseed artist who is preparing C. P. R. exhibit at American Land and Irrigation Exposition to be held in New York next November, collected sixty different varieties of native grasses at C. P. R. Demonstration Farm, Strathmore.

Reports from Manitoba state that the farmers of that province have started cutting barley.
